	Conception Bay South	St. John's CMA	Newfoundland and Labrador	Canada
Average number of persons in private households	2.6	2.4	2.3	2.4

Quick Facts

- The average number of persons per household in Conception Bay South is 2.6. In comparison to 2011, this has decreased. When compared to St. John's CMA, the Province and Nation, Conception Bay South has a higher average of persons per household.
- The largest growth of structure type between 2011 and 2016 continues to be single-detached homes with 410 new homes added. The second largest growth in structure types was in apartment buildings with fewer than five storeys. Comparably, Conception Bay South proportionally added more apartment buildings to its existing stock than the rest of St. John's CMA.
